

The Model Room within the Museum contains over 1500 separate items ranging from tin plate, die cast and resin.

Featured in Model Collector magazine 2013.

**RESEARCH** - The Museum has a library which holds Technical and Historical information on a variety of subjects, including vehicles, equipment, stations, personnel, and photographs of all aspects of firefighting. Although the library is not open to the public, it can be made available for research projects by appointment, in return for a donation.

Mk9, Mk8 & TACR1 (left to right)

Visitors to the Museum will be able to have a guided tour or simply browse at their own pace. The Museum is split into two parts; The Annex and The Vehicle Hangar. The Annex contains the Memorabilia, photos, badges, extinguishers, hundreds of Helmets, Caps, Models, uniforms and pictures not only from the RAF, but also from Civilian fire brigades and services from all around the world and much more. The Vehicle Hangar houses 40+ Fire Engines dating as far back as 1943 and as modern as the 1990's. There is an on-going program of restoration and visitors may see volunteers working on projects when they visit either building. There is something of interest for all ages.

**THERE IS NO CHARGE TO ACCESS THE MUSEUM BUT WE ARE ENTIRELY DEPENDANT ON DONATIONS FOR ALL OF OUR WORK TO CONTINUE**

**Our ever expanding collection established at RAF Scampton has been referred to, by many, as featuring the largest private display of fire memorabilia in the country and also the largest collection of ex-military fire engines in the world.**

Established in 1949 the **British Fire Service Association** was the forerunner of all modern fire and rescue services in the UK. Housed within the museum is a fascinating display of Trophies, Medals, Photographs and artefacts dating back over 100 years, which pre-dates the merger in 1949. Many of these have never been on public display before. With the Centenary year of WW1 in 2014 see also the memorial of former firefighters fallen during battle, one of whom was awarded the Victoria Cross Medal. Part of BFSFA Room (below)
